

“THE SEATBELT BRUSH”™

INNOVATIVE • TIME SAVING • ERGONOMIC

**You don't just clean cars--you detail! You use the right tool for the job.
You need the right brush to clean seatbelts -- and it is finally here!**

You make the outside and the inside of the car shine- but open the door and see seatbelts with coffee stains, make-up stains, ketchup and maybe a little grease from french fries - and it doesn't seem quite as shiny! The traditional way to get seatbelts clean is with a small handled brush. That works fine --BUT-- you pull the seatbelt out, apply your favorite cleaner and you are pushing the belt into air. Then do the same thing to the other side of the seat belt. What if there was a better way, a way that was fast but also effective and easier.

BLUGATOR™ The Seatbelt Brush is your answer!

The patent pending **BLUGATOR™** seatbelt brush is ergonomically designed for the pro detailer. Pull out the seatbelt and insert between the **BLUGATOR'S™** two levels of brush fiber. You are instantly cleaning both sides of the seatbelt at the same time. You are not wasting energy-The **BLUGATOR™** allows you to use the cleaning energy to clean both sides of the seatbelt at once!

BLUGATOR™

SBB-001

The **BLUGATOR™** Seatbelt Brush was introduced at the recent car shows. Detailers watched with amazement at how much easier and how much more effective the **BLUGATOR™** seatbelt brush is-- then they tried it and wanted it immediately. This is how the detailer can create add-on services and grow sales. Or it makes the overall detailing process more effective and much easier for your detailing team--no one will skip detailing seatbelts with the **BLUGATOR™**.
